Note: These observation bunkers are all oriented toward the complete X-15 vehicle test stand located in the southeast $\frac{1}{4}$ of the X-15 Engine Test Complex, and are identical. Because of obstructions, it was necessary to use views of the three different bunkers to adequately show the design. Photographs CA-235-B-1 through CA-235-B-3 are 8" x 10" enlargements from 4" x 5" negatives.
